BECAUSE SOME STATES/COUNTRIES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

8. Export Restrictions

THIS LICENSE AGREEMENT IS EXPRESSLY MADE SUBJECT TO ANY APPLICABLE LAWS, REGULATIONS, ORDERS, OR OTHER RESTRICTIONS ON THE EXPORT OF THE SOFTWARE OR INFORMATION ABOUT SUCH SOFTWARE WHICH MAY BE IMPOSED FROM TIME TO TIME. YOU SHALL NOT EXPORT THE SOFTWARE, DOCUMENTATION OR INFORMATION ABOUT THE SOFTWARE AND DOCUMENTATION WITHOUT COMPLYING WITH SUCH LAWS, REGULATIONS, ORDERS, OR OTHER RESTRICTIONS. 10. Termination

This License Agreement is effective until it is terminated. You may terminate this License Agreement at any time by destroying or returning to Zyxel all copies of the Software and Documentation in your possession or under your control. Zyxel may terminate this License Agreement for any reason, including, but not limited to, if Zyxel finds that you have violated any of the terms of this License Agreement. The exclusive forum for any disputes arising out of or relating to this License Agreement shall be an appropriate court or Commercial Arbitration Association sitting in ROC, Taiwan if the parties agree to a binding arbitration. This License Agreement shall constitute

the entire Agreement between the parties hereto. This License Agreement, the rights granted hereunder, the Software and Documentation shall not be assigned by you without the prior written consent of Zyxel. Any waiver or modification of this License Agreement shall only be effective if it is in writing and signed by both parties hereto. If any part of this License Agreement is found invalid or unenforceable by a court of competent jurisdiction, the remainder of this License Agreement shall be interpreted so as to reasonably effect the intention of the parties.

GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.

59 Temple Place - Suite 330, Boston, MA 02111-1307, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it. For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software. Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The

"Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you". Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it. Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program. In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or, c)

Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it.

For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable. If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program. If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances. It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice. This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does

not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

a. You must give any other recipients of the Work or Derivative Works a copy of this License; and

b. You must cause any modified files to carry prominent notices stating that You changed the files; and

c. You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

d. If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for

reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

This Product includes lltd software under Microsoft Windows Rally Component License Agreement.

Link Layer Topology Discovery Protocol Specification

Updated: September 1, 2010

The Link Layer Topology Discovery (LLTD) specification describes how the LLTD protocol operates over wired (802.3 Ethernet) and wireless (802.11) media. LLTD enables device discovery via the data-link layer and determines the topology of a network. This specification also describes the Quality of Service (QoS) Extensions that enable stream prioritization and quality media streaming experiences, even on networks with limited bandwidth.

The LLTD specification is licensed on a royalty-free and self-help click-through basis for devices with limitations on targeted platforms. Non-Windows computer devices can get a royalty-bearing or fee-based license by contacting the Microsoft Intellectual Property and Licensing team.

MICROSOFT WINDOWS RALLY COMPONENT LICENSE AGREEMENT

This Microsoft Windows Rally Component License Agreement (the "Agreement") is by and between MICROSOFT CORPORATION, a corporation organized under the laws of Washington ("Microsoft"), and you or the organization on

whose behalf you are entering into this Agreement (collectively and interchangeably, "You" or "Licensee"). If You want a license from Microsoft to access, view or implement one or more Licensed Specifications (as defined below), You must indicate your agreement to the terms of this Agreement by checking the "I Agree" box below. If you do not check the "I Agree" box, you have no right to access, view or implement the Licensed Specifications. This Agreement is effective on the date you check the "I Agree" box (the "Effective Date").

Recitals

Microsoft has developed certain "Windows Rally" technologies that are intended to facilitate certain tasks performed by or in conjunction with network connected devices, including communications protocols. Licensee desires a license from Microsoft to access, view or implement the Licensed Specification(s), and to use the corresponding Technical Documentation (as defined below) for the purpose of such implementation(s).

1.1 "Affiliate" means, with respect to any legal entity, any other such entity directly or indirectly Controlling, Controlled by, or under common Control with such entity. "Control" means the power to direct the management of a legally recognizable entity.

1.2 "Game Console" means any computing system that has interactive gaming as its primary functionality and is not designed, marketed or capable of performing the functions of (or replacing) a server, personal computer, laptop, netbook, tablet, slate or smartbook.

1.3 "General Purpose Computing Device" means any server, personal computer, laptop, netbook, tablet, slate, smartbook or other device that: (i) contains processor(s), permanent and temporary memory storage device(s), and an operating system; (ii) is capable as shipped or enabled by the manufacturer or its designee of executing personal productivity applications (such as word processing, spreadsheet, database, personal information management, image editing, or financial management); (iii) is not a Game Console or Mobile Phone; and (iv) is shipped without a Microsoft operating system.

1.4 "Consumer Product" means a consumer ready device (other than a General Purpose Computing Device) that is capable of implementing the Licensed Specification and that is built by Licensee and branded with a trademark owned, controlled or licensed by Licensee. For purposes of this Agreement, a "consumer ready device" is a hardware device marketed primarily to consumers as a cohesive unit and not as a component of another single unit device.

1.5 "Licensed Specification" means only the LLTD and PNP-X Specifications as described in the Technical Documentation.

1.6 "Mobile Phone" means any mobile telephone or other mobile device that (i) has voice telecommunication functionality as a primary functionality, (ii) operates through a wireless network, (iii) has a display screen (whether a single display or multiple integrated displays) no larger than 5 inches across its diagonal, and (iv) does not include a keyboard designed for use with more than two fingers at a time.

1.7 "Necessary Claims" means those claims of Microsoft-owned or Microsoft-controlled patents that are necessary to implement the Required Portions in Consumer Products. Necessary Claims do not include any claims covering any underlying or enabling technology that may be necessary to make or use any product (or a portion thereof, including Consumer Products or combination therewith) that implements the Required Portions, or to any implementation of

technical documentation, specifications or technologies that are merely referred to in the body of the Technical Documentation.

1.9 "Required Portions" means all portions of the Licensed Specification with the exception of any portions that are expressly identified by Microsoft as being "optional."

1.10 "Technical Documentation" means Microsoft's proprietary technical documentation for the Licensed Specification(s) as available at <http://www.microsoft.com/whdc/connect/rally/default.mspix> or successor websites.

2. Licenses

2.1 Copyright License. Microsoft grants to Licensee a non-exclusive, royalty-free, non-sublicensable, nontransferable, personal, worldwide license under Microsoft copyrights in the Technical Documentation to copy the Technical Documentation for use solely in exercising its rights under Section 2.2.

2.2 Patent License. Subject to the terms and conditions of this Agreement, including Sections 2.4 and 2.5, and to Licensee's compliance with all notices in the Technical Documentation, Microsoft grants Licensee a personal, non-exclusive, non-transferable, non-sublicensable, worldwide, royalty-free license under its Necessary Claims to make, have made (exclusively for Licensee for distribution under a Licensee Brand), use, sell, offer for sale and import implementations of the Licensed Specifications as incorporated only into Consumer Products and (a) solely in compliance with the Required Portions; and (b) if the Consumer Product into which the Licensed Specifications are implemented are distributed in source code form, solely together under a license agreement that includes the following term as a condition of such license agreement (and no other terms that are inconsistent with, or would prohibit, the following):

"This source code incorporates intellectual property owned by Microsoft Corporation and cannot be made, used, sold, offered for sale, imported or redistributed without a license from Microsoft Corporation. If you would like a license from Microsoft, you need to contact Microsoft directly (send mail to rally@microsoft.com)."

2.3 No Warranties. Licensee will make no representation or warranty to third parties on behalf of Microsoft.

2.4 Excluded Licenses. Notwithstanding anything else in this Agreement, Licensee is not licensed to and may not subject the Licensed Specifications, Technical Documentation or any Microsoft intellectual property right to the terms of the GNU General Public License (GPL), Lessor/Library GPL, Mozilla Public License or any license that requires, as a condition of use, modification or distribution of technology subject to such license, that such technology or other technology combined or distributed with such technology (a) be disclosed or distributed in source code form; (b) be licensed for the purpose of making derivative works; or (c) be re-distributable at no charge.

2.5 Reservation of Rights. All rights not expressly granted in this Agreement are reserved. No additional licenses or rights are granted by implication, exhaustion, estoppel or otherwise, including without limitation (i) any license or other right with respect to any portions of Consumer Products other than the implementation of Required Portions, and (ii) any license or other rights under any patent claims other than Necessary Claims. The grants of the licenses in Sections 2.1 and 2.2 are conditioned upon neither You nor any third parties receiving any licenses or rights (by implication, exhaustion, estoppel or otherwise) to implement the Licensed Specification except as incorporated into Your Consumer Products as licensed herein and You ensuring that all direct and indirect recipients of Your implementations agree to the foregoing condition.

2.6 License Termination. If You or Your Affiliate file, maintain, or voluntarily participate in a patent infringement lawsuit against a Microsoft implementation of any Licensed Specification, then this Agreement, and all rights granted to You under this Agreement, will terminate without any additional notice from Microsoft.

3. Confidentiality. The Licensed Specifications, Technical Documentation, and all intellectual property licensed to Licensee under this Agreement are the Confidential Information of Microsoft. Licensee will take reasonable security precautions, at least as great as precautions taken to protect Licensee's own confidential information but no less than reasonable care, to keep the Confidential Information confidential. Licensee will not disclose the confidential information except to Licensee's employees with a need-to-know the confidential information and only under a written agreement equally protective of Microsoft as this Section. Licensee may disclose the confidential information in accordance with a judicial or other governmental order as long as Licensee gives Microsoft enough notice to allow Microsoft to reasonably seek a protective order or equivalent. Licensee will notify Microsoft immediately upon discovery of any unauthorized use or disclosure of confidential information, and will cooperate with Microsoft to help regain possession of the confidential information and prevent its further unauthorized use or disclosure. Monetary damages may not be a sufficient remedy for unauthorized disclosure of confidential information, and Microsoft will be entitled, without waiving any other rights or remedies, to such injunctive or equitable relief as may be deemed proper by a court of competent jurisdiction.

4 Term and Termination

4.1 Term. This Agreement is effective as of the Effective Date, unless and until terminated.

4.2 Termination. Licensee may terminate this Agreement at any time upon written notice to Microsoft. Microsoft may terminate this Agreement if Licensee materially breaches this Agreement and fails to cure the breach within sixty (60) days after Licensee receives notice of the breach from Microsoft. This Agreement and all rights granted to You will automatically terminate if the conditions of Section 2.5 are not satisfied.

4.3 Survival. Sections 1, 2.3, 2.4, 2.5, 4.3, 5.2, 6 and 7 will survive any termination of this Agreement. Subject to Section 2.5, after termination, end users will continue to have the right to use implementations of Required Portions in Consumer Products that were distributed under the license in Section 2.2 prior to termination.

5. Representations and Disclaimers of Warranty

5.1 Licensee represents and warrants that the person signing this Agreement on Licensee's behalf has all necessary power and authority to do so, and that this Agreement is a binding obligation on Licensee.

5.2 DISCLAIMERS. THE TECHNICAL DOCUMENTATION, LICENSED SPECIFICATION(S) AND ALL INTELLECTUAL PROPERTY MADE AVAILABLE AND/OR LICENSED UNDER THIS AGREEMENT ARE PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND. MICROSOFT DISCLAIMS ALL WARRANTIES, DUTIES AND CONDITIONS, EITHER EXPRESS, IMPLIED OR STATUTORY WITH RESPECT TO SUCH MATERIALS, INCLUDING ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE OR NON-INFRINGEMENT.

6. Limitation of Liability. MICROSOFT WILL NOT BE LIABLE FOR ANY DAMAGES ARISING FROM OR OTHERWISE RELATED TO THIS AGREEMENT, WHETHER INDIRECT, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR SPECIAL DAMAGES, EVEN IF MICROSOFT HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES IN ADVANCE.

7. Miscellaneous

7.1 No Partnership, Joint Venture or Franchise. This Agreement does not create a partnership, joint venture or agency relationship between the parties.

7.2 No Technical Support. This Agreement does not include technical support by Microsoft. Licensee is solely responsible for all such support and will advise channel entities and end users accordingly.

7.3 Export Regulations. The Technical Documentation and Licensed Specifications may be subject to U.S. export jurisdiction and other applicable national or international laws. Licensee agrees to comply with all such laws. See <http://www.microsoft.com/exporting/>.

7.4 Notices. All notices in connection with this Agreement will be deemed given as of the day they are received either by messenger, delivery service, or in the United States of America mails, postage prepaid, certified or registered, return receipt requested.

7.5 Governing Law; Jurisdiction; Attorneys' Fees. This Agreement is controlled by the laws of the State of New York as such laws apply to contracts entered into by New York residents to be performed entirely within New York. Licensee consents to exclusive jurisdiction and venue in the United States District Court for the Southern or Eastern Districts of New York. Licensee waives all defenses of lack of personal jurisdiction and forum non conveniens.

7.6 Assignment. Licensee may not transfer or assign this Agreement, or any rights or obligations hereunder, whether by operation of contract, law, change of Control or otherwise. Any attempted assignment by Licensee in violation of this Section is void.

7.7 Construction. If any court finds any portion of this agreement to be unenforceable (other than Section 2.2(b) or Section 2.5), such provision will be enforced to the maximum extent permissible so as to effect the intent of the parties, and the Agreement will continue in full force and effect. In the event that a court finds Section 2.2(b) or Section 2.5 unenforceable, this entire Agreement and any licenses granted hereunder will be rendered null and void. Failure to enforce any provision of this Agreement is not a waiver of future enforcement of that or any other provision.

7.8 Entire Agreement. This Agreement constitutes the entire agreement between the parties with respect to its subject matter, and merges all prior and contemporaneous communications.

clockspeed uses a hardware tick counter to compensate for a persistently fast or slow system clock. See BLURB for a more detailed advertisement.

INSTALL says how to set up and test clockspeed.
